

`biolockj.module.implicit.parser.wgs` is a sub package of `[[module.implicit.parser]]`.

Package modules extend `ParserModuleImpl` to generate OTU tables from WGS classifier output.

Implicit modules are ignored if included in the Config file unless `project.allowImplicitModules=Y`.

Humann2Parser

```
(added by BioLockJ) #BioModule biolockj.module.implicit.parser.wgs.Humann2Parser
```

Description: Build OTU tables from `HumanN2 classifier module` output.

Options: *none*

KrakenParser

```
(added by BioLockJ) #BioModule biolockj.module.implicit.parser.wgs.KrakenParser
```

Description: Build OTU tables from `KRAKEN` mpa-format reports.

Options: *none*

Kraken2Parser

```
(added by BioLockJ) #BioModule biolockj.module.implicit.parser.wgs.Kraken2Parser
```

Description: Build OTU tables from `KRAKEN 2` mpa-format reports.

Options: *none*

Metaphlan2Parser

```
(added by BioLockJ) #BioModule biolockj.module.implicit.parser.wgs.MetaphlanParser
```

Description: Build OTU tables from `Metaphlan2 classifier module` reports.
